Welcome to our second site newsletter of the project!

Hello From Midas,

As you can see the works planned to start at the beginning of the month have had to be postponed.

We are still busy planning the works and hope to get started soon !.

What's Next?

Investigation works for Westminster Street have been completed as planned. However, the project start date has had to be pushed back because of further work required to divert the path of Wessex Water pipes. We are currently going through the necessary legal processes to do so and are unable to start the project until these are completed.

You will be kept up to date on this process and will be told when work can commence.

Site Monitoring:

Once works commence daily site monitoring for noise and vibration will be recorded and these activities will be during strictly controlled working hours.

Key forthcoming dates

- TBA

Erica Darke – Community Liaison Officer
